**Factsheet
2024** ENGLISH
VERSION

The development of modern pipe connection technology
from 1967 to today.

Ladies and Gentlemen,

Sales volume in 2024 of 1.95 billion euros (+3 %) was significantly influenced by the favourable development of our industrial companies (+9 %) and in particular that of AUTANIA Group (+14 %).

The 2024 financial year was marked by the wars in Ukraine, the crises in the Middle East, the elections in the USA and unsettled political and economic frameworks, particularly in France and Germany.

Against this background, our group was able to draw on the strength and adaptability of our family business, which, through its financial strength, was able to maintain strong inventories and thereby a high level of delivery-readiness and to adapt to changing market conditions while maintaining strict cost control.

Last year, on May 24th, Rothenberger AG celebrated its 75th company anniversary with the inauguration of the new 5,000 m² production and technology center in Kelkheim in order to meet the rapidly growing demand for technologically sophisticated pressing machines for pipe connections.

On September 17th, Nordwest Handel AG held the groundbreaking ceremony for their new logistics center in Alsfeld, which is scheduled to go into operation in 2026 after almost 4 years in the planning process, in the presence of Hesse's Prime Minister Boris Rhein.

On November 29th, the Leistriz AG turbine blade factory in Thailand was reopened, having been rebuilt in record time after the catastrophic fire of February 12th, 2024.

The high equity ratio in excess of 50 % and a balance sheet total of 1.4 billion euros form the financial basis for a record investment volume of more than 300 million euros on which to achieve our sales target of 3 billion euros in 2030.

The Dr. Helmut Rothenberger Holding stands ready and able to face the challenges of an increasingly difficult market environment characterized by political and economic uncertainty against a background of energy transition and climate change.

My thanks go to all the employees, managers, business partners and my family for their commitment and contribution to achieving this very good outcome.

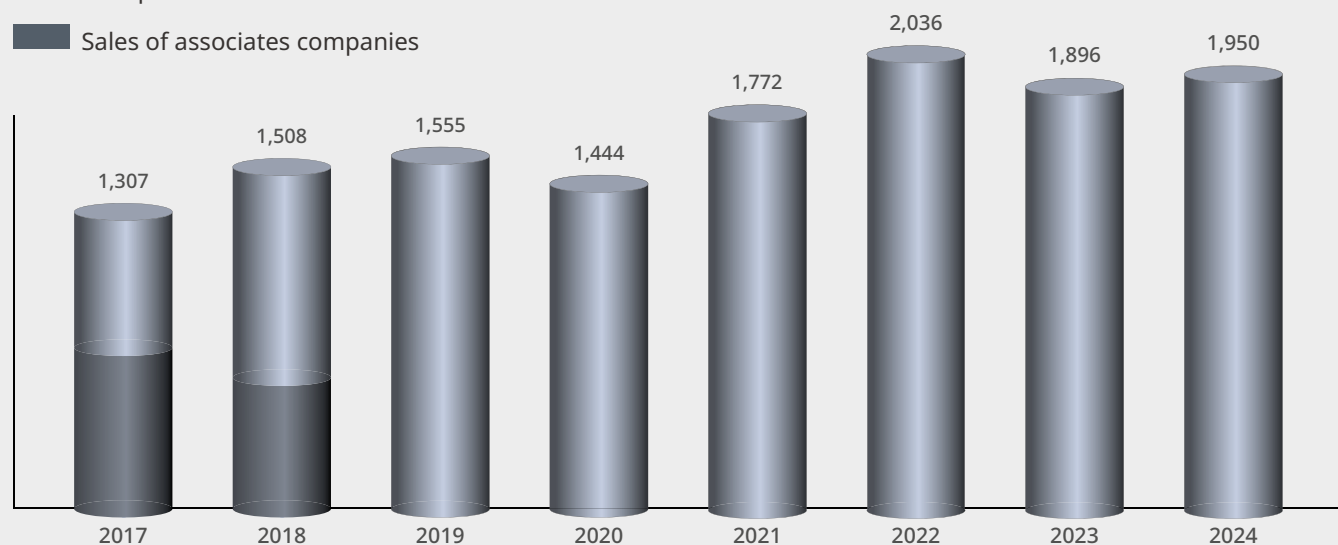

Salzburg, January 2025
